Tiger Eye CrystaLac Step by Step

by Szilvia Balázsi

1. Remove the excess skin with the cuticle pusher. Refine the nails surface with a Soft Touch Buffer, prepare the nails with Spray Prep.
2. Thinly apply Base gel to the surface, cure it in the UV lamp for 2-3 mins.
3. Thinly apply Tig30 Tiger Eye CrystaLac to the nail plate. Seal the edges, then cure it in the UV lamp for 2-3 mins.
4. Apply the second layer Tig30 Tiger Eye CrystaLac. Magnetize it without curing it. Then, place it in the lamp.
5. Cover the nail surface with Super Shine Optic. Seal the edges, then cure it in the UV lamp for 2-3 mins. Cleanse the nail surface with Cleanser or Cleanser pad.
6. Stick Swarovski stones next to the lunula, with Brush On Gel Tip Glue, then twirl the mixture of Crystal Pixie and beads into Easy Off Top Gel. Place them between the stones. Cure them for 2 mins in the UV lamp.

WaterPro CrystaLac, for professional „Waterway” technique

Non-cleansing, soak off CrystaLac, for professional „Waterway” technique

You can drop any type of 3 STEP CrystaLac or ONE STEP CrystaLac into this non-cleansing, soak off WaterPro CrystaLac and with a brush (0 Short or 0 Long) or with a nail art needle you can create different designs.

WaterPro CrystaLac can be used 2 different ways:

3 STEP CrystaLac system:

Prepare the natural nails according to the 3 Step gel polishing method. Apply the base gel and cure it. Apply one layer of WaterPro CrystaLac and cure that layer too. Apply another layer of WaterPro CrystaLac and drop your 3 STEP CrystaLac (3S or GL) color into the wet Waterpro CrystaLac according to your design and cure it. Finally cover it with a top gel.

ONE STEP CrystaLac system:

Prepare the natural nails according to the One Step gel polishing method. Apply one layer of WaterPro CrystaLac and cure it . Apply another layer of WaterPro CrystaLac and drop your One STEP CrystaLac (1S or OS) color into the wet Waterpro CrystaLac according to your design and cure it . Apply a top gel (optional).

CN TIP:
THE CURING TIME IS
THE SAME AS THE
OTHER GEL POLISHES!

CN TIP:
IT WORKS WITH ANY TYPE
OF 3 STEP CRYSTALAC

Important!

For CrystaLac only use strong UV bulbs! Check the lamp in every 2-3 months (eg.: Does the Super Shine Optic cure totally dry in 2 minutes?! If the bulbs are weak, the material does not cure totally, and it can come off. If you applied it thickly it might get wrinkled.

BASE GELS

UNIVERSAL BASE GELS

3 STEP CRYSTALAC BASE GELS

COVER LIGHTPINK BASE GEL

Colored base gel in paler pink shade

Unique developed, colored, flexible, easy to soak off, paler pink shade version of Cover Pink Base Gel. Like Cover Pink Base Gel, it's extremely easy to handle, it can be spread easily on the nail surface. In paler pink shade, less pigmented than Cover Pink Base Gel.

COVER PINK BASE GEL

Colored base gel

Unique development! Colored, flexible, soak off base gel with good adhesion. Its color is identical with the most popular Cover Pink color. It is extremely easy to handle, it can be spread easily on the nail surface. A slightly sticky layer remains on the surface. Easy to soak off, the soak off time of a nail created with this: approx. 8 mins.

BASE GEL

The base gel that is flexible, soak off, provides an extreme adhesion for 3 STEP Crystalacs. Use it in a thin layer for the perfect adhesion and better soak off effect.

COLOR UP! BASE GEL

„COLOR TUNING“ UNDER 3 STEP CRYSTALAC!

Softer, white, flexible, strong adhesion base gel, especially under 3 STEP Crystalac gel polish. Soaks off perfectly. Easy to handle. Use it thinly, in one layer. It easy to apply with the soft brush. If applied under the STEP Crystalac it, gives extra vivacity to the applied colors.

BUILDER BASE GEL

THE STRONGEST ADHESION CN BASE GEL

Incredible strength of adhesion, new development: say goodbye to adhesion problems even in case of the most problematic clients. Easy to apply, a bit more dense, the shorter brush makes your work more even. Apply under Crystalac, but in this case the solubility will decrease, because of the stronger adhesion.

Aurora: shiny-mirror effect for Unicorn addicts
Galaxy Holo: different grain size- extreme sparkling

AURORA:

Amazing shell effect! The new Aurora ChroMirror chrome pigment powder is a must for unicorn-lovers. Easy to use: apply it onto a non-cleansing surface:- Royal Gel, ONE STEP CrystaLac, 0/clear ONE STEP CrystaLac, Super Shine Optic, Xtreme Top Shine and Cool Top Gel – cure it for approx. 80%- (until it is not sticky anymore but not fully cured yet) rub the powder into this surface. Apply Acid Free Primer to the nail surface or the edges and cover it with 2 layers of top gel.

Aurora

GALAXY HOLO:

The new Galaxy Holo ChroMirror chrome pigment powder is the most spectacular holo effect so far. The small micas make the effect even more unique. Due to its variable grain size, the sparkling is even more extreme.

How to use: If you apply the Galaxy Holo ChroMirror chrome pigment powder onto a non-cleansing surface, rub it into the half-cured product. In this case you will get a more homogenous surface. If you massage it into a surface that require cleansing, you will get a grainy result – As if many tiny diamonds were glittering on the nails. Finally apply Acid Free Primer to the nail surface or the edges and cover it with 2 layers of top gel.

Magyarosi Barbara Transfer Foil

Step by step

1. Refine the prepared nail plate with Soft Touch Buffer, remove the dust, and thoroughly wipe it with No Buffer Scrub.
2. Apply the Color Up! Base in two layers. Cure the first layer for 1 min, and the second for 2 mins in LED lamp.
3. Cover the whole nail surface with Cool Top Gel and cure it for 30 secs then remove the shine with the Soft Touch Buffer.
4. Paint the pattern with the Xtreme Foil Gel using a 0 Short brush and cure it for 20-25 secs in LED lamp. (Attention: The cure time depends on the strength of the lamp, so it is worth trying it with your own lamp)
5. Wipe the Gold Eye Xtreme transfer foil with Cleanser, then push it to the pattern.
6. Cover the nails with two layers of Cool Top gel. Make a quick cure between the two layers, then cure it totally for 1 minute.

Mirror Nail Art Sticker

Thin glass foil-effect stickers that shine in all colors of the rainbow. Easy usage: First clean the nails with a Cleanser Pad then slowly and carefully pull the pattern off the backing. Put it on the nail surface and press the sticker gently (for approximately 10-20 seconds) so the heat separates the sticker from its frame. It's a really thin sticker so it will easily fit on the nail surface. Cover the surface with 2 thin layers of non-cleansing top gel. It can be applied on the nail surface or inlaid. Your clients will love how the sun will glisten in thousands of colors on their nails.

Available in five fantastic designs.

Use as follows:

1. Clean the nail with Cleanser Pad before applying the sticker.
2. With slow and careful moves pull the pattern and its frame off the sticker backing.
3. Make sure the pattern of the sticker is laid on the nail surface. Only the frame can touch your client's skin. Thus, the pattern is completely disconnected from the frame.
4. Cover it with two thin layers of non-cleansing top gel

Blood Orange

The combination of red and orange offered us the blood orange color. A color full of life that emanates energy and joy. Feel free to combine this color with the nude ones like the 1S52 Chestnut Puree- that is a perfect match. You will see that this season each client will have a blood orange accessory, that is why the 1S54 ONE STEP CrystaLac is a must have. Don't forget to leave it on your desk, in the limelight, and your client will choose this color on her nails. Cover the free-edge with the 91-color gel or decorate a nude-colored nail with R15 Royal Gel. If your client prefers artificial nails show her the 96 color powder.
